Chthonic. You have Resistance to Necrotic damage. You also know the Chill Touch cantrip. When you reach character levels 3 and 5, *False Life* and *Ray of Enfeeblement* respectively You always have that spell prepared. You can cast it once without a spell slot, and you regain the ability to cast it in that way when you finish a Long Rest. You can also cast the spell using any spell slots you have of the appropriate level. Intelligence is your spellcasting ability for the spells you cast with this trait.

Tough

Your Hit Point maximum increases by an amount equal to twice your character level when you gain this feat. Whenever you gain a character level thereafter, your Hit Point maximum increases by an additional 2 Hit Points.

CLASS FEATURES

Spellcasting — 1

Cantrips Whenever you finish a Long Rest, you can replace one of your cantrips from this feature with another Wizard cantrip of your choice.

Spellbook Your wizardly apprenticeship culminated in the creation of a unique book: your spellbook. It is a Tiny object that weighs 3 pounds, contains 100 pages, and can be read only by you or someone casting Identify. You determine the book's appearance and materials, such as a gilt-edged tome or a collection of vellum bound with twine.

Spell Slots The Wizard Features table shows how many spell slots you have to cast your level 1+ spells. You regain all expended slots when you finish a Long Rest.

Changing Your Prepared Spells Whenever you finish a Long Rest, you can change your list of prepared spells, replacing any of the spells there with spells from your spellbook.

Spellcasting Ability Intelligence is your spellcasting ability for your Wizard spells.

Spellcasting Focus You can use an Arcane Focus or your spellbook as a Spellcasting Focus for your Wizard spells.

Ritual Adept — 1

You can cast any spell as a Ritual if that spell has the Ritual tag and the spell is in your spellbook. You needn't have the spell prepared, but you must read from the book to cast a spell in this way.

Arcane Recovery — 1

When you finish a Short Rest, you can choose expended spell slots to recover. The spell slots can have a combined level equal to no more than half your Wizard level (round up), and none of the slots can be level 6 or higher. Once you use this feature, you can't do so again until you finish a Long Rest.

Necromancy Spellbook — 3

Undead Familiar. The Find Familiar spell appears in your spellbook. When you cast the spell, you choose one of the normal forms for your familiar or one of the following special forms: Skeleton or Zombie (see appendix B of the Player's Handbook for the familiar's stat block). When you choose one of the normal forms, you can choose Undead as its creature type.

Additionally, when you take the Attack action, you can forgo one of your own attacks to allow your familiar to make one attack of its own with its Reaction.

Once per turn when you kill one or more creatures with a spell of 1st level or higher, you regain hit points equal to twice the spell's level, or three times its level if the spell belongs to the School of Necromancy. You don't gain this benefit for killing constructs or undead.

Memorize Spell — 5

Whenever you finish a Short Rest, you can study your spellbook and replace one of the level 1+ Wizard spells you have prepared for your Spellcasting feature with another level 1+ spell from the book.

Grave Power — 6

Grave Resilience. When you use Arcane Recovery, your Exhaustion level, if any, decreases by 1.
Overwhelming Necrosis. Damage from your Wizard spells and Wizard features ignores Resistance to Necrotic damage.

Undead Thralls — 6

You always have Animate Dead prepared and can cast it without expending a spell slot, but you must finish a Long Rest before you can cast it in this way again. Whenever you start casting the spell, you can increase the spell's effective level by 1.
In addition, while holding your spellbook, you gain the following benefits.

Undead Fortitude. Whenever you cast a Necromancy spell that creates or summons an Undead, the Undead's Hit Point maximum and current Hit Points increase by a number equal to your Intelligence modifier plus half your Wizard level (round down).

Withering Strike. Whenever an Undead you control within 60 feet of you hits a creature with an attack roll, the Undead deals extra Necrotic damage equal to your Intelligence modifier (minimum of 1 Necrotic damage).

Harvest Undead — 10

You have learned more secrets about the nuances of life and death. Immediately after you become Bloodied but aren't reduced to 0 Hit Points from taking damage, you can take a Reaction to reduce an Undead creature under your control that you can see to 0 Hit Points. You then immediately regain a number of Hit Points equal to your Wizard level.
