Racial Features

Dark vision (60ft)
Fey Ancestry You have Advantage on saving throws you make to avoid or end the Charmed condition.
Trance You don't need to sleep, and magic can't put you to sleep. You can finish a Long Rest in 4 hours if you spend those hours in a trancelike meditation, during which you retain consciousness.
Elven Lineage You know the *True Strike* cantrip. Whenever you finish a Long Rest, you can replace that cantrip with a different cantrip from the Wizard spell list. At level 3, you learn the *Detect Magic* spell and at level 5, the *Misty Step* spell. You always have these spell prepared. You can cast them once without a spell slot, and you regain the ability to cast them in that way when you finish a Long Rest. You can also cast the spell using any spell slots you have of the appropriate level. Wisdom is your spellcasting ability for these spells.

Portal Jumper

Otherworldly Resilience. You have Resistance to one of the following damage types: Necrotic, Psychic, or Radiant (choose when you select this feat).
Portal Step. You can spend 15 feet of movement to teleport to an unoccupied space you can see within 15 feet of yourself. You can use this benefit a number of times equal to your Proficiency Bonus but only once per turn, and you regain all expended uses when you finish a Long Rest.

CLASS FEATURES

Spellcasting — 1

You regain all expended slots when you finish a Long Rest. Whenever you finish a Long Rest, you can change your list of prepared spells, replacing any of the spells with other Cleric spells for which you have spell slots.
Wisdom is your spellcasting ability for your Cleric spells.

Channel Divinity — 2

You can use this class's Channel Divinity twice. You regain one of its expended uses when you finish a Short Rest, and you regain all expended uses when you finish a Long Rest. You gain additional uses when you reach certain Cleric levels, as shown in the Channel Divinity column of the Cleric Features table.
If a Channel Divinity effect requires a saving throw, the DC equals the spell save DC from this class's Spellcasting feature.
Divine Spark As a Magic action, you point your Holy Symbol at another creature you can see within 30 feet of yourself and focus divine energy at it. Roll 1d8 and add your Wisdom modifier. You either restore Hit Points to the creature equal to that total or force the creature to make a Constitution saving throw. On a failed save, the creature takes Necrotic or Radiant damage (your choice) equal to that total. On a successful save, the creature takes half as much damage (round down).
You roll an additional d8 when you reach Cleric levels 7 (2d8), 13 (3d8), and 18 (4d8).
Turn Undead As a Magic action, you present your Holy Symbol and censure Undead creatures. Each Undead of your choice within 30 feet of you must make a Wisdom saving throw. If the creature fails its save, it has the Frightened and Incapacitated conditions for 1 minute. For that duration, it tries to move as far from you as it can on its turns. This effect ends early on the creature if it takes any damage, if you have the Incapacitated condition, or if you die.

Circle of Mortality — 3

Pull of Death. Once per turn, when you deal damage to a creature that's missing any Hit Points by casting a spell or by hitting with an attack roll, that creature takes an extra 1d4 Necrotic damage. This extra damage increases to 1d6 when you reach Cleric level 11.
Return to Life. You can cast Spare the Dying as a Bonus Action. Additionally, when you would normally roll one or more dice to restore Hit Points to a creature at 0 Hit Points with a spell or Channel Divinity, don't roll those dice for the healing; instead, use the highest number possible for each die. For example, instead of restoring 2d4 Hit Points to a creature at 0 Hit Points with a spell, you restore 8.

Path to the Grave — 3

As a Bonus Action, you present your Holy Symbol and expend a use of Channel Divinity to curse one creature you can see within 30 feet of yourself until the start of your next turn. While cursed, the creature has Disadvantage on attack rolls and saving throws. When you or an ally you can see hits the cursed target with an attack roll, you can end the curse early (no action required) to make the attack deal extra Necrotic or Radiant damage (your choice) equal to your Cleric level.

War Caster — 4

Concentration. You have Advantage on Constitution saving throws that you make to maintain Concentration.
Reactive Spell. When a creature provokes an Opportunity Attack from you by leaving your reach, you can take a Reaction to cast a spell at the creature rather than making an Opportunity Attack. The spell must have a casting time of one action and must target only that creature.
Somatic Components. You can perform the Somatic components of spells even when you have weapons or a Shield in one or both hands.

Sear Undead — 5

Whenever you use Turn Undead, you can roll a number of d8s equal to your Wisdom modifier (minimum of 1d8) and add the rolls together. Each Undead that fails its saving throw against that use of Turn Undead takes Radiant damage equal to the roll's total. This damage doesn't end the turn effect.

Sentinel at Death's Door — 6

When you or a Bloodied creature you can see within 60 feet of yourself is hit with an attack roll, you can take a Reaction to halve that attack's damage (round down). If the triggering attack roll was a Critical Hit, any effects triggered by a Critical Hit are canceled. You can use this feature a number of times equal to your Wisdom modifier (minimum of once). You regain all expended uses when you finish a Long Rest.

Blessed Strikes — 7

Add your Wisdom modifier to the damage of Cleric cantrips.

Divine Intervention — 10

You can call on your deity or pantheon to intervene on your behalf. As a Magic action, choose any Cleric spell of level 5 or lower that doesn't require a Reaction to cast. As part of the same action, you cast that spell without expending a spell slot or needing Material components. You can't use this feature again until you finish a Long Rest.

Improved Blessed Strikes — 14

When you cast a Cleric cantrip and deal damage to a creature with it, you can give vitality to yourself or another creature within 60 feet of yourself, granting a number of Temporary Hit Points equal to twice your Wisdom modifier.
