Racial Features

Dark vision (60+60=120ft)

Fey Ancestry You have Advantage on saving throws you make to avoid or end the Charmed condition.

Trance You don't need to sleep, and magic can't put you to sleep. You can finish a Long Rest in 4 hours if you spend those hours in a trancelike meditation, during which you retain consciousness.

Elven Lineage You know the *druidcraft* cantrip. At level 3, you learn the *Longstrider* spell and at level 5, the *Pass without a trace* spell. You always have these spell prepared. You can cast them once without a spell slot, and you regain the ability to cast them in that way when you finish a Long Rest. You can also cast the spell using any spell slots you have of the appropriate level. Wisdom is your spellcasting ability for these spells.

WEAPON MASTERY

Slow

If you hit a creature with this weapon and deal damage to it, you can reduce its Speed by 10 feet until the start of your next turn. If the creature is hit more than once by weapons that have this property, the Speed reduction doesn't exceed 10 feet.

Topple

If you hit a creature with this weapon, you can force the creature to make a Constitution saving throw (DC 8 plus the ability modifier used to make the attack roll and your Proficiency Bonus). On a failed save, the creature has the Prone condition.

Nick

When you make the extra attack of the Light property, you can make it as part of the Attack action instead of as a Bonus Action. You can make this extra attack only once per turn.

CLASS FEATURES

Spellcasting (1)

Spell Slots You regain all expended slots when you finish a Long Rest.
Changing Your Prepared Spells Whenever you finish a Long Rest, you can replace one spell on your list with another Ranger spell for which you have spell slots.
Spellcasting Ability Wisdom is your spellcasting ability for your Ranger spells.
Spellcasting Focus You can use a Druidic Focus as a Spellcasting Focus for your Ranger spells.

Favored Enemy (1)

You always have the *Hunter's Mark* spell prepared. You can cast it twice without expending a spell slot, and you regain all expended uses of this ability when you finish a Long Rest.

The number of times you can cast the spell without a spell slot increases when you reach certain Ranger levels, as shown in the Favored Enemy column of the Ranger Features table.

Weapon Mastery (1)

Your training with weapons allows you to use the mastery properties of two kinds of weapons of your choice with which you have proficiency, such as Longbows and Shortswords.

Whenever you finish a Long Rest, you can change the kinds of weapons you chose.

Archery Fighting Style (2)

You gain a +2 bonus to attack rolls you make with Ranged weapons.

Dread Ambusher (3)

Ambusher's Leap. At the start of your first turn of each combat, your Speed increases by 10 feet until the end of that turn.
Dreadful Strike. When you attack a creature and hit it with a weapon, you can deal an extra 2d6 Psychic damage. You can use this benefit only once per turn, you can use it a number of times equal to your Wisdom modifier (minimum of once), and you regain all expended uses when you finish a Long Rest.
Initiative Bonus. When you roll Initiative, you can add your Wisdom modifier to the roll.

Umbral Sight (3)

You gain Darkvision with a range of 60 feet. If you already have Darkvision when you gain this feature, its range increases by 60 feet.

You are also adept at evading creatures that rely on Darkvision. While entirely in Darkness, you have the Invisible condition to any creature that relies on Darkvision to see you in that Darkness.

Extra Attack (5)

You can attack twice instead of once whenever you take the Attack action on your turn.

Roving (6)

Your Speed increases by 10 feet while you aren't wearing Heavy armor. You also have a Climb Speed and a Swim Speed equal to your Speed.

(8)

Tireless (10)

Temporary Hit Points As a Magic action, you can give yourself a number of Temporary Hit Points equal to 1d8 plus your Wisdom modifier (minimum of 1). You can use this action a number of times equal to your Wisdom modifier (minimum of once), and you regain all expended uses when you finish a Long Rest.

Decrease Exhaustion Whenever you finish a Short Rest, your Exhaustion level, if any, decreases by 1.

Stalker's Flurry (11)

The Psychic damage of your Dreadful Strike becomes 2d8. In addition, when you use the Dreadful Strike effect of your Dread Ambusher feature, you can cause one of the following additional effects.
Sudden Strike. You can make another attack with the same weapon against a different creature that is within 5 feet of the original target and that is within the weapon's range.
Mass Fear. The target and each creature within 10 feet of it must make a Wisdom saving throw against your spell save DC. On a failed save, a creature has the Frightened condition until the start of your next turn.
