CLASS FEATURES

Spellcasting

1

Spell Slots You regain all expended slots when you finish a Long Rest.

Changing Your Prepared Spells Whenever you finish a Long Rest, you can replace one spell on your list with another Ranger spell for which you have spell slots.

Spellcasting Ability Wisdom is your spellcasting ability for your Ranger spells.

Spellcasting Focus You can use a Druidic Focus as a Spellcasting Focus for your Ranger spells.

Favored Enemy

1

You always have the Hunter's Mark spell prepared. You can cast it twice without expending a spell slot, and you regain all expended uses of this ability when you finish a Long Rest.

The number of times you can cast the spell without a spell slot increases when you reach certain Ranger levels, as shown in the Favored Enemy column of the Ranger Features table.

Weapon Mastery

1

Your training with weapons allows you to use the mastery properties of two kinds of weapons of your choice with which you have proficiency, such as Longbows and Shortswords.

Whenever you finish a Long Rest, you can change the kinds of weapons you chose.

2

Primal Companion

3

Choose its stat block: Beast of the Land, Beast of the Sea, or Beast of the Sky. You also determine the kind of animal it is, choosing a kind appropriate for the stat block.

The beast is Friendly to you and your allies and obeys your commands. It vanishes if you die.

The Beast in Combat. In combat, the beast acts during your turn. It can move and use its Reaction on its own, but the only action it takes is the Dodge action unless you take a Bonus Action to command it to take an action in its stat block or some other action. You can also sacrifice one of your attacks when you take the Attack action to command the beast to take the Beast's Strike action. If you have the Incapacitated condition, the beast acts on its own and isn't limited to the Dodge action.

Restoring or Replacing the Beast. If the beast has died within the last hour, you can take a Magic action to touch it and expend a spell slot. The beast returns to life after 1 minute with all its Hit Points restored.

Whenever you finish a Long Rest, you can summon a different primal beast, which appears in an unoccupied space within 5 feet of you. You choose its stat block and appearance. If you already have a beast from this feature, the old one vanishes when the new one appears.

4

Extra Attack

5

You can attack twice instead of once whenever you take the Attack action on your turn.

Roving

6

Your Speed increases by 10 feet while you aren't wearing Heavy armor. You also have a Climb Speed and a Swim Speed equal to your Speed.

Exceptional Training

7

When you take a Bonus Action to command your Primal Companion beast to take an action, you can also command it to take the Dash, Disengage, Dodge, or Help action using its Bonus Action.

In addition, whenever it hits with an attack roll and deals damage, it can deal your choice of Force damage or its normal damage type.

Tireless

10

Temporary Hit Points As a Magic action, you can give yourself a number of Temporary Hit Points equal to 1d8 plus your Wisdom modifier (minimum of 1). You can use this action a number of times equal to your Wisdom modifier (minimum of once), and you regain all expended uses when you finish a Long Rest.

Decrease Exhaustion Whenever you finish a Short Rest, your Exhaustion level, if any, decreases by 1.

Bestial Fury

11

When you command your Primal Companion beast to take the Beast's Strike action, the beast can use it twice. In addition, the first time each turn it hits a creature under the effect of your Hunter's Mark spell, the beast deals extra Force damage equal to the bonus damage of that spell.
